My Phone number is (home) **972.438.5234** (cell) **214.797.6223**

Best time to reach me anytime Best way to reach me cell

I am the new Technology Committee Chairman. This committee is responsible for assisting all members with their technology goals.

My Goals

The Technology Committee will be providing several different opportunities for you and your chapter to enhance your use of technology. The first project that we are implementing is the creation of a monthly newsletter entitled "Technology Tips and Treats". It is our hope and belief that this newsletter will provide you with new and creative technology and methods of use that will enhance you personally and professionally, as well as, your chapter. Please look for the first newsletter in your e-mail by the end of July 2011. The Technology Committee is currently working on "Technology Tips" sheets that will help you and your members to learn and develop their own personal technology skills. We hope that this will help to increase the comfort level of all Alpha State members no matter what their level of technology skills are currently.

In the future, we hope to provide special sessions at Las Colinas and Waco that will assist you to solve technology problems that you may have and to help you to step out of your comfort level and try new and creative technologies within your chapter.

If you as chairman of this committee need help or wish an answer to a

question, please contact the above chairman for advice or answers anytime during the year.

If you have suggestions or ideas that the state committee might implement, please submit them to the chairman named above.
